

HABOC COVID Re-Opening Plan

Facts about the SARS-CO-V-2 Virus that Causes COVID-19:

- The virus is transmitted person to person through respiratory droplets, which is why 6 foot physical distancing is so important
- There is no evidence that the virus can be transmitted by food
- It can persist on surfaces for 24-72 hours which is why sanitation of commonly touched surfaces is important
- Risks of infection from touching surfaces can significantly be reduced by avoiding touching the face, frequent handwashing and use of hand sanitizers
- Cloth face coverings reduce spreading of the virus by those who may be infected but are not showing symptoms and should be used in addition to physical distance and hand hygiene.

HABOC has put the following practices in place:

HABOC instructors shall not work if they feel ill.

HABOC instructors shall wear masks when students are within 6 feet proximity And gloves if there is any physical item transferred between parties (i.e. jump bars). Greater than 6 foot proximity shall be at the student's discretion if instructors wear masks and gloves. No more than 10 total people in the building at one time.

HABOC instructors will sanitize all surfaces touched with disinfectant after a lesson or class. (I.E. Handrails, counters, door knobs)

HABOC shall ensure access to handwashing facility sanitizer and/or hand soap. Students should supply their own hand sanitizer as this is not readily available.

HABOC EXPECTS YOU to put these practices in place:

Knowing that **YOU** are accepting the responsibility for attending any HABOC event/lesson/class/ activity and with that you are expected to abide by these requirements for your safety and the safety of others.

Masks are required at all times inside the building.

Avoid ALL contact with other's dogs. DO NOT allow dogs from different households to touch or play. Since limited crates are available, if you need a crate, bring your own, or work from your car. If using a shared HABOC crate, please wipe down with supplied spray after use.

Students shall handle their own dog and their own leash.

Students will be expected to help wipe down door knobs and sink handles after use. We will attempt to make sanitizer spray available at each door.

Know the signs and symptoms of COVID-19 and STAY HOME if you, a family Member or a contact becomes ill. Please notify us if you become ill in the few days following your class or lesson.

Do not bring additional people to your class or lesson. Only 1 handler and dog/s participating in class will be allowed.

Payments need to be by check or exact cash amounts.

When an individual is using the facility, he/she will sanitize all surfaces after use.

These rules were compiled from a variety of resources and are subject to change without notice.

Anyone not in compliance will be asked to leave.
